Partnership Organization	Sep. 30, 2016
Disclosure Text Block [Abstract]	
Organization, Consolidation and Presentation of Financial Statements Disclosure [Text Block]	<p>Note 1. Partnership Organization</p> <p>Energy 11, L.P. (the “Partnership”) was formed as a Delaware limited partnership. The initial capitalization of the Partnership of \$1,000 occurred on July 9, 2013. The Partnership is offering common units of limited partner interest (the “units”) on a best-efforts basis with the intention of raising up to \$2,000,000,000 of capital, consisting of 100,263,158 units. The Partnership’s offering was declared effective by the Securities and Exchange Commission (“SEC”) on January 22, 2015. As of August 19, 2015, the Partnership completed the sale of the minimum offering of 1,315,790 units. The subscribers were admitted as Limited Partners of the Partnership at the initial closing of the offering and the Partnership has been admitting additional Limited Partners monthly since that time.</p> <p>The Partnership’s primary investment objectives are to (i) acquire producing and non-producing oil and gas properties with development potential, and to enhance the value of the properties through drilling and other development activities, (ii) make distributions to the holders of the units, (iii) engage in a liquidity transaction after five – seven years, in which all properties are sold and the sales proceeds are distributed to the partners, merge with another entity, or list the units on a national securities exchange, and (iv) permit holders of units to invest in oil and gas properties in a tax efficient basis. The proceeds from the sale of the units primarily will be used to acquire producing and non-producing oil and natural gas properties onshore in the United States and to develop those properties.</p> <p>The general partner of the Partnership is Energy 11 GP, LLC (the “General Partner”). The General Partner manages and controls the business affairs of the Partnership. David Lerner Associates, Inc. (the “Managing Dealer”), is the dealer manager for the offering of the units.</p> <p>The Partnership’s fiscal year ends on December 31.</p>

Summary of Significant Accounting Policies	9 Months Ended
	Sep. 30, 2016
Accounting Policies [Abstract]	
Significant Accounting Policies [Text Block]	<p>Note 2. Summary of Significant Accounting Policies</p> <p><i>Basis of Presentation</i></p> <p>The accompanying unaudited financial statements have been prepared in accordance with the instructions for Article 10 of SEC Regulation S-X. Accordingly, they do not include all of the information required by generally accepted accounting principles (“GAAP”) in the United States. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These unaudited financial statements should be read in conjunction with the Partnership’s audited consolidated financial statements included in its 2015 Annual Report on Form 10-K. Operating results for the three and nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the twelve-month period ending December 31, 2016.</p> <p><i>Offering Costs</i></p> <p>The Partnership is raising capital through an on-going best-efforts offering of units by David Lerner Associates, Inc., the managing underwriter, which receives a selling commission and a marketing expense allowance based on proceeds of the units sold. Additionally, the Partnership has incurred other offering costs including legal, accounting and reporting services. These offering costs are recorded by the Partnership as a reduction of partners’ equity. As of September 30, 2016, the Partnership had sold 10.1 million units for gross proceeds of \$197.0 million and proceeds net of offering costs of \$183.1 million.</p> <p><i>Use of Estimates</i></p> <p>The preparation of financial statements in conformity with United States GAAP requires the Partnership to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.</p> <p><i>Loss Per Common Unit</i></p> <p>Basic net loss per common unit is computed as net loss divided by the weighted average number of common units outstanding during the period. Diluted net loss per unit is calculated after giving effect to all potential common units that were dilutive and outstanding for the period. There were no units with a dilutive effect for the three and nine months ended September 30, 2016 and 2015. As a result, basic and diluted outstanding units were the same. The Class B Units and Incentive Distribution Rights, as defined below, are not included in net loss per common unit until such time that it is probable Payout (as discussed in Note 6) would occur.</p> <p><i>Recent Accounting Standards</i></p> <p>In August 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2016-15, Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments, which addresses specific cash flow issues with the objective to reduce existing diversity in practice. For public entities, the guidance is effective for reporting periods beginning after December 15, 2017, and interim periods with those fiscal years. Early adoption is permitted. This standard is not expected to have a material impact on the Partnership’s consolidated statements of cash flows.</p> <p>In April and May 2016, the FASB issued ASU 2016-10, ASU 2016-11 and ASU 2016-12. Each update clarifies specific topics originally described in ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09, released in May 2014, amends the former revenue recognition guidance and provides a revised comprehensive revenue recognition model with customers that contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. ASU 2014-09 was to be effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. However, the FASB deferred the effective date by one year in August 2015. The Partnership is currently evaluating the impact, if any, of ASU 2014-09 as well as the related subsequent pronouncements released.</p>

In March 2016, the FASB issued ASU 2016-09, Compensation – Stock Compensation, which simplifies several aspects of accounting for share-based payment transactions, including income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. For public entities, the guidance is effective for reporting periods beginning after December 15, 2016, and it is not expected to have a material impact on the Partnership's consolidated financial statements.

Oil and Gas Investments	9 Months Ended Sep. 30, 2016												
Oil and Gas Property [Abstract]													
Oil and Gas Properties [Text Block]	<p>Note 3. Oil and Gas Investments</p> <p>On December 18, 2015, the Partnership completed its purchase of an approximate 11% working interest in approximately 215 existing producing wells and approximately 262 future development locations in the Sanish field located in Mountrail County, North Dakota (the "Sanish Field Assets") for approximately \$159.1 million, subject to post-closing adjustments. During the first half of 2016, the Partnership and the sellers ("Sellers") adjusted the purchase price for the settlement of operating activity that occurred prior to the closing date. The net impact of the purchase price adjustment was an increase to the purchase price of the asset of approximately \$0.5 million. The Partnership has expensed, as incurred, transaction costs associated with the acquisition of the Sanish Field Assets. These costs included but were not limited to due diligence, reserve reports, legal and engineering services and site visits. The Partnership did not incur any transaction costs in the three and nine months ended September 30, 2016.</p> <p>The Partnership is a non-operator of the Sanish Field Assets. Whiting Petroleum Corporation ("Whiting"), one of the largest producers in this basin, acts as the operator.</p> <p>The following unaudited pro forma financial information for the three- and nine-month periods ended September 30, 2015 has been prepared as if the acquisition of the Sanish Field Assets had occurred on January 1, 2015. The unaudited pro forma financial information was derived from the historical Statement of Operations of the Partnership and the historical information provided by the Sellers. The unaudited pro forma financial information does not purport to be indicative of the results of operations that would have occurred had the acquisition of the Sanish Field Assets and related financing occurred on the basis assumed above, nor is such information indicative of the Partnership's expected future results of operations.</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th></th> <th style="text-align: center;">Three Months ended September 30, 2015</th> <th style="text-align: center;">Nine Months ended September 30, 2015</th> </tr> <tr> <th></th> <th style="text-align: center;">(Unaudited)</th> <th style="text-align: center;">(Unaudited)</th> </tr> </thead> <tbody> <tr> <td>Revenues</td> <td style="text-align: right;">\$ 6,726,273</td> <td style="text-align: right;">\$ 20,933,273</td> </tr> <tr> <td>Net loss</td> <td style="text-align: right;">\$ (1,437,410)</td> <td style="text-align: right;">\$ (1,603,259)</td> </tr> </tbody> </table>		Three Months ended September 30, 2015	Nine Months ended September 30, 2015		(Unaudited)	(Unaudited)	Revenues	\$ 6,726,273	\$ 20,933,273	Net loss	\$ (1,437,410)	\$ (1,603,259)

Note Payable	9 Months Ended Sep. 30, 2016
Debt Disclosure [Abstract]	
Debt Disclosure [Text Block]	<p>Note 4. Note Payable</p> <p>As part of the financing for the purchase of the Sanish Field Assets, on December 18, 2015, the Partnership executed a note in favor of the Sellers ("Seller Note") of the assets in the original principal amount of \$97.5 million. On September 29, 2016, the Partnership paid the Seller Note in full.</p> <p>On June 23, 2016, the Seller Note was increased by \$5.0 million to satisfy the contingent payment due to the Sellers as defined in the First Amendment of the Interest Purchase Agreement. The Partnership was given the one-time right (exercisable between June 15, 2016 through June 30, 2016) to elect to satisfy the contingent payment in full by paying to Sellers \$5.0 million at the time of election or by increasing the amount of the Seller Note by \$5.0 million. On June 23, 2016, the Partnership exercised that right by increasing the amount of the Partnership's note with the Sellers by \$5.0 million. If the Partnership had not exercised the one-time right, the contingent payment would have ranged from \$0 to \$95 million depending on the average of the monthly NYMEX:CL strip prices as of December 31, 2017 for future contracts during the delivery period beginning December 31, 2017 and ending December 31, 2022.</p> <p>In accordance with the Seller Note, because the Partnership had not fully repaid all amounts outstanding under the note on or before June 30, 2016, the Partnership paid a deferred origination fee equal to \$250,000 during the three months ended June 30, 2016. The deferred origination fee was amortized and expensed in full during the three months ended September 30, 2016 and is included in "Interest (expense) / income, net" on the consolidated statements of operations.</p> <p>As of September 30, 2016 and December 31, 2015, the outstanding balance on the note was \$0 and \$85.0 million, respectively. As of September 30, 2016 and December 31, 2015, the carrying value of the note, which approximates its fair market value, was \$0 and \$81.7 million, respectively. The carrying value of all of the other financial instruments of the Partnership approximate fair value due to their short-term nature. The Partnership estimated the fair value of its note payable by discounting the future cash flows of each instrument at estimated market rates consistent with the maturity of a debt obligation with similar credit terms and credit characteristics, which are Level 3 inputs under the fair value hierarchy. Market rates take into consideration general market conditions and maturity.</p>

Management Agreement	9 Months Ended Sep. 30, 2016
Contractors [Abstract]	
Long-term Contracts or Programs Disclosure [Text Block]	<p>Note 5. Management Agreement</p> <p>At the initial closing of the sale of its common units on August 19, 2015, the Partnership entered into a Management</p>

Services Agreement (the “Management Agreement”) with E11 Management, LLC, (the “Former Manager”), and E11 Incentive Holdings, LLC, an affiliate of the Former Manager (“Incentive Holdings”), whereby the Former Manager agreed to provide management and operating services regarding substantially all aspects of the Partnership’s business. The Former Manager was formed by Aubrey K. McClendon and he served as its Chief Executive Officer.

Under the Management Agreement, the Former Manager agreed to provide management and other services to the Partnership including, but not limited to, the following:

- Identifying and evaluating oil and natural gas properties for acquisition, development, integration, sale or monetization;
- Conducting (or overseeing one of its affiliated companies or third-parties to conduct) drilling, completion, production, marketing and hedging operations as the operator of the Partnership’s oil and natural gas properties;
- Overseeing the drilling, completion, production, marketing and hedging operations of our oil and natural gas properties operated by other persons or entities;
- Identifying and evaluating financing alternatives for acquisitions of producing oil and natural gas properties; and
- Managing the financial, accounting and other back office support functions associated with the drilling, completion, production, marketing and hedging of the Partnership’s oil and natural gas properties.

Pursuant to the Management Agreement, the Partnership agreed to pay the Former Manager a monthly fee.

Upon entering into the Management Agreement, the Partnership issued 100,000 Class B units to Incentive Holdings. The Class B units entitle the holder to receive a portion of distributions made after Payout, as described in Note 6 below.

The Management Agreement was terminable by the Partnership if, among other reasons, Mr. McClendon, the Former Manager’s key employee, ceased to be employed by the Former Manager and the Partnership did not approve of a proposed replacement of such key employee. On March 2, 2016, Mr. McClendon died in a car accident. Following Mr. McClendon’s death and subsequent correspondence between the Former Manager and the Partnership, on April 5, 2016, the Partnership elected not to approve a replacement key employee for Mr. McClendon and exercised its right to terminate the Management Agreement. Accordingly, the fees under the Management Agreement were no longer accrued as of the effective date of termination. Also, upon termination of the Management Agreement and in accordance with the terms therewith, 37.5% of the Class B units owned by Incentive Holdings were canceled. As of September 30, 2016, the Class B units owned by Incentive Holdings totaled 62,500.

Substantially all of the Partnership’s properties are currently being operated by Whiting, an independent third party. Since the Partnership only owns a non-operating interest in the Sanish Field Assets, most of the services that the Former Manager had been contracted to perform are being performed by Whiting, as operator of those properties. Consequently, the termination of the Management Agreement has not had and the Partnership does not anticipate that the termination will have an adverse effect on its operations.

For the three and nine months ended September 30, 2016, the Partnership incurred fees and reimbursable costs of approximately \$0 and \$0.9 million, respectively, under the Management Agreement. For the three and nine months ended September 30, 2015, the Partnership incurred fees and reimbursable costs of approximately \$0.3 million under the Management Agreement.

Capital Contribution and Partners' Equity	9 Months Ended Sep. 30, 2016
Partners' Capital Notes [Abstract]	
Partners' Capital Notes Disclosure [Text Block]	<p>Note 6. Capital Contribution and Partners' Equity</p> <p>At inception, the General Partner and organizational limited partner made initial capital contributions totaling \$1,000 to the Partnership. Upon closing of the minimum offering the organizational limited partner withdrew its initial capital contribution of \$990, the General Partner received Incentive Distribution Rights (defined below), and has been and will be reimbursed for its documented third party out-of-pocket expenses incurred in organizing the Partnership and offering the units.</p> <p>As of August 19, 2015, the Partnership completed its minimum offering of 1,315,790 common units at \$19.00 per common unit. In March 2016, the Partnership completed the sale of 5,263,158 common units at \$19.00 per common unit. All subsequent shares of common units are being sold at \$20.00 per common unit. As of September 30, 2016, the Partnership had completed the sale of 10,112,197 common units for total gross proceeds of \$197.0 million and proceeds net of offering costs including selling commissions and marketing expenses of \$183.1 million.</p> <p>The Partnership intends to continue to raise capital through its best-efforts offering by the Managing Dealer at \$20.00 per common unit. Under the agreement with the Managing Dealer, the Managing Dealer receives a total of 6% in selling commissions and a marketing expense allowance based on gross proceeds of the units sold. The Managing Dealer will also be paid a contingent incentive fee, which is a cash payment of up to an amount equal to 4% of gross proceeds of the units sold based on the performance of the Partnership. Based on the units sold through September 30, 2016, the total contingent fee is approximately \$7.9 million.</p> <p>Prior to “Payout,” which is defined below, all of the distributions made by the Partnership, if any, will be paid to the holders of units. Accordingly, the Partnership will not make any distributions with respect to the Incentive Distribution Rights or with respect to Class B units and will not make the contingent, incentive payments to the Managing Dealer, until Payout occurs.</p> <p>The Partnership Agreement provides that Payout occurs on the day when the aggregate amount distributed with respect to each of the units equals \$20.00 plus the Payout Accrual. The Partnership Agreement defines “Payout Accrual” as 7% per annum simple interest accrued monthly until paid on the Net Investment Amount outstanding from time to time. The Partnership Agreement defines Net Investment Amount initially as \$20.00 per unit, regardless of the amount paid for the unit. If at any time the Partnership distributes to holders of units more than the Payout Accrual, the amount the</p>

Partnership distributes in excess of the Payout Accrual will reduce the Net Investment Amount.

All distributions made by the Partnership after Payout, which may include all or a portion of the proceeds of the sale of all or substantially all of the Partnership's assets, will be made as follows:

- First, (i) to the Record Holders of the Incentive Distribution Rights, 35%; (ii) to the Record Holders of the Outstanding Class B units, pro rata based on the number of Class B units owned, 35% multiplied by a fraction, the numerator of which is the number of Class B units outstanding and the denominator of which is 100,000; (iii) to the Managing Dealer, as the Managing Dealer contingent incentive fee paid under the Dealer Manager Agreement, 30%, and (iv) the remaining amount, if any, to the Record Holders of outstanding units, pro rata based on their percentage interest until such time as the Managing Dealer receives the full amount of the Managing Dealer contingent incentive fee under the Dealer Manager Agreement;
- Thereafter, (i) to the Record Holders of the Incentive Distribution Rights, 35%; (ii) to the Record Holders of the Outstanding Class B units, pro rata based on the number of Class B units owned, 35% multiplied by a fraction, the numerator of which is the number of Class B units outstanding and the denominator of which is 100,000; (iii) the remaining amount to the Record Holders of outstanding units, pro rata based on their percentage interest.

The Partnership may issue up to 37,500 additional Class B units, the amount of Class B units canceled in conjunction with the termination of the Management Agreement discussed above in Note 5.

All items of income, gain, loss and deduction will be allocated to each Partner's capital account in a manner generally consistent with the distribution procedures outlined above.

For the three months ended September 30, 2016, the Partnership paid distributions of \$0.375891 per unit or \$2.8 million. For the nine months ended September 30, 2016, the Partnership paid distributions of \$1.050959 per unit or \$6.5 million.

Subsequent Events [Abstract]	
Subsequent Events [Text Block]	<p>Note 8. Subsequent Events</p> <p>In October 2016, the Partnership declared and paid \$1.1 million, or \$0.107397 per outstanding common unit, in distributions to its holders of common units.</p> <p>In October 2016, the Partnership closed on the issuance of approximately 1.2 million units through its ongoing best-efforts offering, representing gross proceeds to the Partnership of approximately \$24.7 million and proceeds net of selling and marketing costs of approximately \$23.2 million.</p> <p>On November 3, 2016, the Partnership, through one of its wholly-owned subsidiaries, entered into an agreement with Kaiser-Whiting, LLC for the option to acquire an additional approximate 11% working interest in the Sanish Field Assets for approximately \$130.0 million. The Partnership was granted this option in exchange for a \$1.0 million payment, which was made on November 3, 2016. The Partnership has until December 30, 2016 to exercise the purchase option.</p>

Accounting Policies [Abstract]	
Basis of Accounting, Policy [Policy Text Block]	<p><i>Basis of Presentation</i></p> <p>The accompanying unaudited financial statements have been prepared in accordance with the instructions for Article 10 of SEC Regulation S-X. Accordingly, they do not include all of the information required by generally accepted accounting principles ("GAAP") in the United States. In the opinion of management, all adjustments (consisting of</p>

normal recurring accruals) considered necessary for a fair presentation have been included. These unaudited financial statements should be read in conjunction with the Partnership's audited consolidated financial statements included in its 2015 Annual Report on Form 10-K. Operating results for the three and nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the twelve-month period ending December 31, 2016.

Deferred Charges, Policy [Policy Text Block]	<p><i>Offering Costs</i></p> <p>The Partnership is raising capital through an on-going best-efforts offering of units by David Lerner Associates, Inc., the managing underwriter, which receives a selling commission and a marketing expense allowance based on proceeds of the units sold. Additionally, the Partnership has incurred other offering costs including legal, accounting and reporting services. These offering costs are recorded by the Partnership as a reduction of partners' equity. As of September 30, 2016, the Partnership had sold 10.1 million units for gross proceeds of \$197.0 million and proceeds net of offering costs of \$183.1 million.</p>
Use of Estimates, Policy [Policy Text Block]	<p><i>Use of Estimates</i></p> <p>The preparation of financial statements in conformity with United States GAAP requires the Partnership to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.</p>
Earnings Per Share, Policy [Policy Text Block]	<p><i>Loss Per Common Unit</i></p> <p>Basic net loss per common unit is computed as net loss divided by the weighted average number of common units outstanding during the period. Diluted net loss per unit is calculated after giving effect to all potential common units that were dilutive and outstanding for the period. There were no units with a dilutive effect for the three and nine months ended September 30, 2016 and 2015. As a result, basic and diluted outstanding units were the same. The Class B Units and Incentive Distribution Rights, as defined below, are not included in net loss per common unit until such time that it is probable Payout (as discussed in Note 6) would occur.</p>
New Accounting Pronouncements, Policy [Policy Text Block]	<p><i>Recent Accounting Standards</i></p> <p>In August 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2016-15, Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments, which addresses specific cash flow issues with the objective to reduce existing diversity in practice. For public entities, the guidance is effective for reporting periods beginning after December 15, 2017, and interim periods with those fiscal years. Early adoption is permitted. This standard is not expected to have a material impact on the Partnership's consolidated statements of cash flows.</p> <p>In April and May 2016, the FASB issued ASU 2016-10, ASU 2016-11 and ASU 2016-12. Each update clarifies specific topics originally described in ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09, released in May 2014, amends the former revenue recognition guidance and provides a revised comprehensive revenue recognition model with customers that contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. ASU 2014-09 was to be effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. However, the FASB deferred the effective date by one year in August 2015. The Partnership is currently evaluating the impact, if any, of ASU 2014-09 as well as the related subsequent pronouncements released.</p> <p>In March 2016, the FASB issued ASU 2016-09, Compensation – Stock Compensation, which simplifies several aspects of accounting for share-based payment transactions, including income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. For public entities, the guidance is effective for reporting periods beginning after December 15, 2016, and it is not expected to have a material impact on the Partnership's consolidated financial statements.</p>

Business Acquisition, Pro Forma Information [Table Text Block]	<p>The following unaudited pro forma financial information for the three- and nine-month periods ended September 30, 2015 has been prepared as if the acquisition of the Sanish Field Assets had occurred on January 1, 2015. The unaudited pro forma financial information was derived from the historical Statement of Operations of the Partnership and the historical information provided by the Sellers. The unaudited pro forma financial information does not purport to be indicative of the results of operations that would have occurred had the acquisition of the Sanish Field Assets and related financing occurred on the basis assumed above, nor is such information indicative of the Partnership's expected future results of operations.</p>

Debt Instrument, Increase (Decrease) for Period, Description		On June 23, 2016, the Seller Note was increased by \$5.0 million to satisfy the contingent payment due to the Sellers as defined in the First Amendment of the Interest Purchase Agreement. The Partnership was given the one-time right (exercisable between June 15, 2016 through June 30, 2016) to elect to satisfy the contingent payment in full by paying to Sellers \$5.0 million at the time of election or by increasing the amount of the Seller Note by \$5.0 million.			
Debt Instrument, Description		On June 23, 2016, the Partnership exercised that right by increasing the amount of the Partnership's note with the Sellers by \$5.0 million. If the Partnership had not exercised the one-time right, the contingent payment would have ranged from \$0 to \$95 million depending on the average of the monthly NYMEX:CL strip prices as of December 31, 2017 for future contracts during the delivery period beginning December 31, 2017 and ending December 31, 2022.

Management Termination Description				The Management Agreement was terminable by the Partnership if, among other reasons, Mr. McClendon, the Former Manager's key employee, ceased to be employed by the Former Manager and the Partnership did not approve of a proposed replacement of such key employee. On March 2, 2016, Mr. McClendon died in a car accident. Following Mr. McClendon's death and subsequent correspondence between the Former Manager and the Partnership, on April 5, 2016, the Partnership elected not to approve a replacement key employee for Mr. McClendon and exercised its right to terminate the Management Agreement. Accordingly, the fees under the Management Agreement were no longer accrued as of the effective date of termination. Also, upon termination of the Management Agreement and in accordance with the terms therewith, 37.5% of the Class B units owned by Incentive Holdings were canceled. As of September 30, 2016, the Class B units owned by Incentive Holdings totaled 62,500. Substantially all of the Partnership's properties are currently being operated by Whiting, an independent third party. Since the Partnership only owns a non-operating interest in the Sanish Field Assets, most of the services that the Former Manager had been contracted to perform are being performed by Whiting, as operator of those properties. Consequently, the termination of the Management Agreement has not had and the Partnership does not anticipate that the termination will have an adverse effect on its operations.

Key Provisions of Operating or Partnership Agreement, Description					The Partnership Agreement provides that Payout occurs on the day when the aggregate			

					<p>amount distributed with respect to each of the units equals \$20.00 plus the Payout Accrual. The Partnership Agreement defines "Payout Accrual" as 7% per annum simple interest accrued monthly until paid on the Net Investment Amount outstanding from time to time. The Partnership Agreement defines Net Investment Amount initially as \$20.00 per unit, regardless of the amount paid for the unit. If at any time the Partnership distributes to holders of units more than the Payout Accrual, the amount the Partnership distributes in excess of the Payout Accrual will reduce the Net Investment Amount. All distributions made by the Partnership after Payout, which may include all or a portion of the proceeds of the sale of all or substantially all of the Partnership's assets, will be made as follows: First, (i) to the Record Holders of the Incentive Distribution Rights, 35%; (ii) to the Record Holders of the Outstanding Class B units, pro rata based on the number of Class B units owned, 35% multiplied by a fraction, the numerator of which is the number of Class B units outstanding and the denominator of which is 100,000; (iii) to the Managing Dealer, as the Managing Dealer contingent incentive fee paid under the Dealer Manager Agreement, 30%, and (iv) the remaining amount, if any, to the Record Holders of</p>

					outstanding units, pro rata based on their percentage interest until such time as the Managing Dealer receives the full amount of the Managing Dealer contingent incentive fee under the Dealer Manager Agreement; Thereafter, (i) to the Record Holders of the Incentive Distribution Rights, 35%; (ii) to the Record Holders of the Outstanding Class B units, pro rata based on the number of Class B units owned, 35% multiplied by a fraction, the numerator of which is the number of Class B units outstanding and the denominator of which is 100,000; (iii) the remaining amount to the Record Holders of outstanding units, pro rata based on their percentage interest. The Partnership may issue up to 37,500 additional Class B units, the amount of Class B units canceled in conjunction with the termination of the Management Agreement discussed above in Note 5. All items of income, gain, loss and deduction will be allocated to each Partner's capital account in a manner generally consistent with the distribution procedures outlined above.
